PROFILE

Engineering Systems & Design undergraduate graduating in May 2026 with cross-industry experience in analytics, digital transformation, and system design. Skilled in building practical, data-driven solutions through dashboards, automation, and stakeholder collaboration. Passionate about using technology to drive meaningful, sustainable outcomes.

EDUCATION

Singapore University of Technology and Design (SUTD)

B. Eng in Engineering Systems and Design, Minor in Sustainability by Design

Singapore | Sep 2022 – Present

- **ASEAN Full Scholarship Recipient** – Awarded to top regional students for academic and leadership excellence.
- **Relevant Courses** – Statistical Machine Learning, Data and Business Analytics, Simulation Modelling Analysis
- **Capstone Project (In Progress)** – Developing a sustainability data intelligence platform for company ESG ratings.

CORE SKILLS

- **Programming & Analytics:** SQL (Advanced), Python (Intermediate – Pandas, NumPy, Matplotlib), VBA, Machine Learning, Statistics
- **Data & Visualization:** Power BI (Intermediate – DAX, Dashboard), Excel (Advanced – Power Query, PivotTable, VLOOKUP)
- **Business Analysis:** Reporting & Insights, Digital Transformation, Stakeholder Engagement, Workflow Analysis, Solution Design
- **Project Management:** Agile Methodology, Jira, Cross-functional Collaboration, Time Management

PROFESSIONAL EXPERIENCE

TÜV SÜD – People Data Analytics Intern (ASEAN)

Singapore | May 2025 – Dec 2025

- Partnered with People Business Partners across six ASEAN (SG, MY, ID, TH, VN, PH) markets to diagnose workforce issues and deliver insights on attrition and recruitment.
- Redesigned HR reporting workflows, automating Power BI dashboards and cutting manual reporting time (from hours to minutes) for division heads.
- Delivered 30+ analytics projects for HR and Finance leadership, improving data reliability and informing C-suite planning.
- Synthesized ASEAN People Voice Survey results into recommendations that guided regional talent and retention strategies.

AvePoint – Business Analyst Intern (Digital Transformation Consulting)

Singapore | Aug 2024 – Jan 2025

- Engaged directly with senior client stakeholders on a S\$6M+ regulatory transformation project, aligning business needs with technical delivery across five modules.
- Led design of the archival module, defining interfaces and compliance logic adopted in final deployment, earning commendation and a project bonus.
- Translated complex requirements into Figma prototypes, presented to 10+ stakeholders to refine workflows and meet regulatory goals.
- Streamlined cross-team execution, co-authoring four Functional Specification documents that reduced ambiguities and ensured on-time UAT completion.

Schlumberger (SLB) – Contract Data and Business Analyst

Singapore | Jan 2024 – Apr 2024

- Built data pipelines and forecasting dashboards in SQL, Python and Power BI to support regional demand planning.
- Evaluated three forecasting models achieving 75% back-testing accuracy, informing inventory and procurement decisions.
- Delivered interactive visuals and presentations that improved data visibility for non-technical managers.

LEADERSHIP & ACTIVITIES

SUTD Badminton Club – Vice President

Singapore | Sep 2022 – Sep 2023

- Managed operations and budget for 30+ members and organized tournaments enhancing cross-year collaboration.
- Represented SUTD at SUNIG (2023-2025) competitions, strengthening team discipline and cohesion.

ADDITIONAL INFORMATION

- **Certificates:**
 - CS50's Introduction to Databases with SQL (Harvard Online ~ 30 hrs, 2025)
 - (In Progress) Data Analyst in Power BI (Data Camp ~ 50 hrs, 2025)
- **Languages:** English (Native), Chinese Mandarin (Business), Malay (Conversational)
- **Interests:** Competitive Sports, Equity & REIT Markets, ESG & Sustainability Analytics
